**BEST of the WEST**

Schriefer Red Angus • McGee Red Angus • Spur M Red Angus

Welcome...

... to the "Best of the West" Red Angus Sale!

Schriefer, McGee and Spur M Red Angus have teamed up to bring you the 2nd Annual Best of the West Sale. We will be offering leading-edge Red Angus yearling bulls, 2-year-old bulls, registered & commercial heifers. Our team goal is to provide you with the best genetics possible so you can be profitable in today's competitive market.

By offering the best cattle from our three programs, you will be able to find something that will meet all of your needs, from calving ease to growth and performance. We believe it is important to develop a balance of traits that will work in any environment. With the unpredictable weather and markets, it has strengthened our belief that quality and consistency in a breeding program brings promising results.

Red Angus breeders are seeing a great demand for their breeding stock because of their efficient disposition, feedlot performance and carcass merit. This is the perfect time to add Red Angus breeding stock into your program.

We look forward to working with you and helping you with your bull and female needs. If you cannot attend the sale we can make bidding arrangements for you. If you have any questions or would like to take an early look, give us a call. We look forward to seeing you on February 23!

Select Inn ..... 800-641-1000, 701-227-1891

**Delivery/Feeding:**

We will "rebate" you \$50/bull if you haul your own home on Sale Day. We offer free delivery of bulls up to 250 miles from Dickinson to a central point. Bulls will be delivered as soon as possible unless other arrangements are made with the seller. The seller will not be responsible for injury or sickness of sale animals left in their care, but will keep the buyer informed. Heifers and their transport become buyers' responsibility at time of sale.

**Cattle Registration:**

All purebred animals are registered with the Red Angus Association of America (RAAA). Bulls are sold with transferable registrations. Registration papers on purebred heifers will transfer with a minimum purchase price of \$1,000/each.

**Testing of Bulls:**

Bulls will not have been semen tested before sale time. All bulls are sold as guaranteed breeders. Sellers will semen test bulls that they feed prior to delivery, or will rebate buyers the cost of semen testing for bulls taken home on sale day. If there is evidence that the bull is not a breeder, the buyer may obtain a statement signed by a licensed veterinarian indicating that there has been no injury or illness to the animal following the sale and return the bull to the seller for adjustment. Adjustments will be made by either substituting a bull of equal value, by refund of the full purchase price or credit towards the purchase of a bull.

**Sale Order:**

Registered heifers, Commercial heifers, bulls

**Lunch:**

Complimentary lunch will be served.

**Catalog and Advertising:**

Advertising and catalog designed by Cow Camp Promotions, Tracey Koester, [www.cowcampromotions.com](http://www.cowcampromotions.com). Catalog printed by Quality Quick Print, Dickinson, ND.

# YEARLING BULLS

*Spur M Red Angus*

Kyle, Darcy, Bailey and Doug McGee

## SPUR M RED ANGUS

Spur M Red Angus would like to welcome you to our Second Annual Best of the West Bull and Heifer sale.

Spur M has been raising registered and commercial cattle for 20 years. We have been selling yearling bulls by private treaty for the past 20 years, also.

The cattle are raised on dry grass while still on their mothers. Once they are weaned, the bulls are put on a bull developer feed to gain an average of three pounds per day.

We use an extensive AI program for the first cycle and then we use three very good clean-up bulls, of which two of them were raised.

At Spur M Red Angus, we pay attention to length, thickness, structure and soundness. We also like calves that are born with ease, and grow once they are on the ground.

We think we have a very nice set of bulls and heifers to offer, and are sure you will be pleased as well.

We look forward to seeing you at the sale!

**Spur M Red Angus, Doug and Darcy McGee**

701-523-3635 (home), 701-523-6086 (cell)

# MCGEE RED ANGUS

Welcome to the Second Annual Best of the West Sale. We are thankful to our valued customers who have supported us and made our progress possible. It is our pleasure to serve you as a seed-stock producer.

Our program concentrates on the production of profitable seed-stock, emphasizing on calving ease, growth potential, structural soundness and strong maternal qualities. Artificial insemination is used in our synchronized breeding program to produce high-performing calves with predictable performance. Our cattle are range calved and raised on dryland, native pasture. Our bull calves are fed a moderate ration with the goal being natural muscle expression and prime condition – ready to get right to work at turn-out time.

McGee Red Angus raises the kind of cattle that will make you a profit and a satisfied customer. See you February 23rd!

# 2010 BEST OF THE WEST SALE

# SCHRIEFER RED ANGUS

Schriefer Red Angus consists of Marc & Jodi Schriefer (SMJ) as well as their children, Cassi (CSMJ) & Riley (RSMJ). We represent the third and fourth generations of our family to be blessed with the stewardship of our land and cattle north of Golden Valley, ND, and have been Red Angus Breeders since 1988.

We also have a commercial cow/calf herd, so we understand and know the needs of today's cattlemen & cattlegirls. A goal of ours has been to produce the kind of Red Angus breeding stock that have calving ease, produce good mother cows, and perform in the feedlot and on the rail.

Our cows start calving in the late March time-frame and by letting the bulls grow another season on grass and sell as coming 2 year-olds, we feel we can offer our customers a solid-performing, age-matured set of bulls that have value and predictability. We only sell 2-year olds, both AI and natural service sired. This listing is our whole bull crop – nothing held back – and the bulls were on grass until November 15th and have been fed a home-grown ration of corn silage, protein/mineral tubs, high moisture corn (approx. 5#/hd/day), as well as free choice hay.

The yearling heifers come right out of our replacement pen and

have been backgrounded much the same as the bulls. We want to welcome everyone to the Second Annual Best of the West Sale and feel free to contact us anytime, just to visit or to look at our cattle!

Here is a sample of the Barn Boy genetics that will be a major part of our future breeding plans. Lot 25 ranks in the top 5% for WW EPD and top 6% for YW and CW EPDs. This stout rascal combines correctness, thickness and a great profile with a whopping set of numbers. His BW EPD and CED indicate very moderate birth numbers for his progeny.

This bull comes out of one of our most influential cows in our herd with an MPPA of 105. She brings a winner in every fall! Last year's top seller in the sale was a half brother that went to New England to work for Rocco Schroeder. Besides a nice, balanced set of numbers, this moderate-framed bull came off grass in late October at 1,546 lbs. actual weight with a really deep and thick appearance.

# TERMS & CONDITIONS

Except for those stated in the terms and conditions below, there are no warranties, either expressed or implied, as to the merchantability or fitness for a particular purpose with respect to the cattle being sold at this auction. The warranties and guarantees set forth in the "Terms and Conditions" are in lieu of all other warranties, either expressed or implied, and the remedies provided therein shall be the sole and exclusive remedy for the Buyer, or any party claiming through Buyer, for any breach of warranty or guarantee therein provided, and all other obligations or liabilities.

All cattle in this sale are offered according to the laws of the State wherein the sale is conducted. The right to bid, as provided under law, is reserved for all sellers unless otherwise announced.

## BIDDING

The Auctioneer in charge will settle any disputes as to bids, and his decision on such matters shall be final.

## TERMS

Terms of sale are cash unless satisfactory credit arrangements have been made with Sale Management prior to sale.

## PURCHASER'S RISK

Each animal becomes the risk of the Buyer as soon as sold, but it shall be the obligation of the Seller to see that animals are fed and cared for free of charge to Buyer, until loaded for shipment or until the expiration of 48 hours after the sale, whichever occurs sooner.

## CERTIFICATE OF REGISTRY

A transferred certificate of registry will be furnished to the Buyer for each animal.

## HEALTH

All animals are eligible for interstate shipment, except as otherwise announced. Interstate health papers will be furnished for each animal requiring tuberculosis and brucellosis tests in accordance with Federal Regulations.

## A.I./NON-OWNER BULL PERMITS

If a female is bred to a non-owned bull, a Non-Owner Bull Permit will be required for registration of the resulting calf and will be the responsibility of the individual submitting the application for registration unless otherwise specified between the Buyer and Seller.

## ANNOUNCEMENTS

Any changes from information of any kind in the sale catalog or related materials will be announced from the auction block and such announcements shall take precedence.

## BREEDING GUARANTEE

The nature and extent of the Breeding Guarantee is set forth in section 10 of these Sale Terms and Conditions.

All animals are guaranteed by the Seller to be breeders, with the exception of:

- Calves under 12 months of age.
- Animals entered in any show after purchase
- Gross negligence or willful misconduct on the part of Buyer, in the care and treatment of the animal.

Bulls are guaranteed breeders if not allowed to run within the herd until at least 14 months of age. Any bull that satisfies one or more of the following conditions shall be considered a breeder:

- Settles one-third or more of the healthy cows he serves.
- Is the sire of 20 or more animals.
- Settles cows by natural service and passes a fertility test made by a competent veterinarian during any six-month period of trial (provided for in section 10b of "Options and Privileges of Return or Adjustment," this section) shall be considered a breeder.

There is no guarantee with respect to the ability to freeze semen unless negotiated in a separate agreement between Buyer and Seller.

Safe-in-Calf Females have been examined by a competent veterinarian and are so guaranteed.

Served Females are believed to be in calf but are not so guaranteed.

Pasture-bred Females have been exposed but are not guaranteed to be in calf.

Open Females have not been served and are so guaranteed.

## IDENTIFICATION

Seller offers each animal with readable tattoos corresponding to its registration.

## OPTIONS AND PRIVILEGES OF RETURN OR ADJUSTMENT

All claims for adjustment or refund must be made in writing either within six months of the sale date or not later than six months after the animal reaches 18 months of age, with the exception of claims involving defects or parentage.

In the event an animal is claimed to be a non-breeder, the animal may be returned to the farm/ranch of the Seller if in good condition and complying with the health requirements of the Seller's state. The Seller shall be entitled to six months trial following the return of the animal in which to prove the animal is a breeder. If at the end of six months the Seller is unable to prove the animal is a breeder, the Seller, at the option of the Buyer, shall replace the animal with another of equal value or refund the purchase price. The return of the full purchase price shall in any case be deemed full satisfaction and settlement. Any expenses incurred for transporting an animal claimed to be a non-breeder shall be the responsibility of the Buyer; except that the Seller shall be responsible for transportation cost in the excess of the distance between the Buyer's farm/ranch and the location where the sale took place. If the Seller proves the animal to be a breeder, it shall be the obligation of the Buyer to take delivery of the animal and pay all expenses incurred for transportation.

If a female sold as "safe in calf" proves not to be in-calf, the Buyer may receive service from the bull previously used. If the bull is not available, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm/ranch of the Seller. Any adjustment provided for herein shall absolve the Seller from further liability, except in case such female proves to be a non-breeder. If a female represented as "safe in calf" at time of sale to a certain bull proves to have been bred to a different bull, the Seller shall be obligated to make a satisfactory adjustment on the purchase price upon return of the animal to the farm of the Seller (adjustments shall not be considered to be a breeding fee or an allocation of the purchase price to any unborn calf). Any expense incurred for transportation shall be the responsibility of the Buyer, except that the Seller shall be responsible for transportation costs in excess of the distance between the Buyer's farm/ranch and the location where the sale took place.

If a female sold as "served" proves not to be in calf, or if a female sold as "pasture-bred" proves not to be in calf, the Seller only guarantees such female to be a breeder.

If a female sold as "open" proves to be with calf, the Buyer may return the animal to the farm/ranch of the Seller prior to calving for a refund of the full purchase price or for replacement with another animal of equal value, whichever is acceptable to the Buyer. It shall be the obligation of the Seller to bear any expense incurred for transportation.

## DEFAULT

In the event the Buyer defaults on payment, the Buyer shall be responsible for all costs, including attorney's costs, incurred by Sale Management or Seller in connection with collecting, or attempting to collect, payment due.

## GENETIC DEFECT AND PARENTAGE GUARANTEE

The parentage of all animals sold by the Seller is guaranteed to the extent that the animal is by the sire and out of the dam that is indicated on its registration papers.

All test results confirming an animal's genetic defect status must be disclosed to potential buyers prior to that animal's sale.

All cattle have met the RAAA requirements for registration as pertaining to genetic defects. In particular, animals containing a known genetic defect carrier in their two generation pedigree (parent or grandparent) without an intervening tested free animal have been tested for said genetic defect.

Refund of the animal's purchase price or replacement with an animal of equivalent value will be considered satisfactory settlement in the case of incorrect parentage or genetic defect information provided at the time of sale.

In no event will Seller be liable for any special, incidental, indirect, consequential (including without limitation; lost profits, lost value of progeny, embryos and/or semen, interruption of business), or punitive damages,

The Buyer will notify the Seller in writing immediately upon suspicion or verification that parentage or supplied genetic defect information is in error.

In cases of a returned animal: all expenses related to returning the animal to the Seller will be incurred by the Buyer, and the animal being returned must meet health requirements of the Seller's state.

## SELLER'S SEMEN RIGHTS

Any semen rights retained by the Seller must be announced from the auction block at the time of the sale, if not already printed in the sale catalog.

## RIGHTS AND OBLIGATIONS

The above terms and conditions of sale shall constitute a contract between the Buyer and Seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction.

Unless specifically stated herein, neither the Sale Management nor the Red Angus Association of America shall have any liability for any event or occurrence related in any manner to this sale.
